The Robinson College of Business (RCB) at Georgia State University (GSU) invites applications and nominations for one or more visiting faculty positions in the area of Business Analytics, effective Fall 2015 or later. Successful candidates will have an earned doctorate and a research agenda in the area of analytics. Of particular interest are applicants with backgrounds in Data Science, Statistics, Information Visualization, Machine Learning and related fields and a keen interest in analytics research programs addressing disciplinary and interdisciplinary business problems. Successful candidates will complement GSU’s Second Century Initiative to drive a broad vision for interdisciplinary and trans-disciplinary research in the areas of Big Data and Analytics described at http://secondcentury.gsu.edu/2013/12/19/fourth-round-awarded-proposals/.

Minimum requirements are an earned Ph.D. in Business, Statistics, Econometrics, Computer Science, or Mathematics from an accredited university or international equivalent, and a strong research program in analytics. Successful candidates will have a strong trajectory of future publications in widely regarded premier journals in business and related disciplines. Ideal candidates will also have teaching capabilities that include specialized masters programs as well as college-wide interdisciplinary programs in analytics. Evidence or potential of external funding, commensurate with the candidate’s discipline, will be strongly preferred. Candidates will be expected to interact with the industry in the Atlanta area.

The successful candidate’s home will be in the Robinson College of Business.

ABOUT THE ENVIRONMENT

GSU is a leading urban research university located in the heart of Atlanta. With more than 8,000 students and more than 200 faculty members, RCB is one of the largest and most diverse business schools in the country. The college houses the Department of Computer Information Systems and Department of Risk Management and Insurance, both of which have top-10 rankings and Robinson’s Marketing Department ranks 4th in Modeling and Quantitative Analysis in scholarly research productivity. Robinson has active research programs in the management of information technology, predictive risk analytics, marketing analytics and health IT and analytics that are relevant to this position. Salary level, course load and additional research support are competitive at the national level.

FURTHER INFORMATION AND APPLICATION PROCEDURE

Further information about the RCB is online at http://robinson.gsu.edu/. Applicants wishing to apply should register with http://academicjobsonline.org/ (the registration is free) and upload their curriculum vita, statements of research and teaching interests, recent publications or working papers, and evidence of teaching performance. Applicants are required to submit their materials via the online system. Three letters of recommendation should be sent to:

Abhay Nath Mishra  
Search Committee Chair  
Institute of Health Administration  
Robinson College of Business  
P.O. Box 3988  
Atlanta, GA 30302-3988

Electronic recommendation letters will be accepted in pdf format only. These letters, as also questions about the position, should be sent to amishra@gsu.edu.

Review of applications will begin immediately and applicants will be reviewed until positions are filled. Positions are contingent on University budget approval.

GSU is an Equal Opportunity Educational Institution/Affirmative Action Employer.
